

Dear Neighbor,

May 11, 2020

We know this is a difficult time for everyone and we hope you and your loved ones are well. And, special thank you to the grocery employees, first responders, essential workers and medical professionals in our community who are helping us get through this!

Like you, we're not sure what restrictions will still be in place in the coming weeks and months so we've been hard at work figuring out how to remain available and transparent while quarantined.

Beginning this month, we'll be launching a series of short videos in which members of our team answer questions and discuss project features. You can see the videos and submit questions by visiting our website: www.connecttheglens.com. The website has also been revamped to make important content easier to find. We know this does not replace face to face meetings, but we hope these videos will provide some clarity.

For those of you who are new to the community or not familiar with The Junipers project, please feel free to email us at info@connecttheglens.com and a member of our team will be in touch.

Next steps: City staff is in the process of responding to all comments submitted for the Draft Environmental Impact Report. Once the EIR is finalized, we will return to the PQ Planning Board, followed by City of San Diego Planning Commission and City Council.

Sending best wishes for good health,

Ryan Green
Vice President, Lennar Homes
